

BROWN FAMILY DENTISTRY

FORT WORTH, TX

UPDATE ON OUR RESPONSE TO COVID-19

Thank you for your trust in us!

Your continued loyalty and trust in our care during the last year has been overwhelmingly appreciated. We will continue our commitment to the safety of all our patients and our team members, particularly the elderly and those with pre-existing medical conditions. The roll out of vaccines is encouraging and we are optimistic in seeing trends that the Pandemic is moving closer to an end! We will keep you updated with any changes in our response protocols.

FOR NOW, OUR COVID-19 PROTOCOLS WILL REMAIN UNCHANGED.

Thank you for your understanding and cooperation!

- Please wear a mask when you enter our facility. We will have masks available in our front vestibule as you enter in case you forget to bring one.
- We will continue to communicate with you beforehand to ask some screening questions.
- We will continue our current protocol in asking that you call us when you arrive in the parking lot for instructions on entry to our facility.
- We will continue temperature readings and screening questionnaires upon arrival for every patient, anyone accompanying a patient and our entire dental team.
- All other infection control practices that have been previously communicated remain in place in our office!

WE CARE ABOUT YOU!
