

BROWN FAMILY DENTISTRY

FORT WORTH, TX

KEEPING YOU HEALTHY

UPDATE ON OUR RESPONSE TO COVID

Thank you for your trust in us!

Your continued loyalty and trust in our care over the last few years has been overwhelmingly appreciated. We will continue our commitment to the safety of all our patients and our team members, particularly the elderly and those with pre-existing medical conditions. We will keep you updated with any changes in our response protocols.

OUR COVID PROTOCOLS ARE AS FOLLOWS:

Infection control has always been a top priority for our practice! Additional protocols continue to be in place to help protect you and our staff during this unprecedented time.

- Our reception area is now open. However, we will continue to give you the option to call us when you arrive and wait in your car. We will then call you back when we are ready to seat you.
- Our dental team is equipped with appropriate personal protection equipment (PPE) and have been trained to meet all CDC requirements.
- We have installed ISODRY equipment in every treatment room. ISODRY is the latest technology that has been proven to be the best way to reduce aerosols by 90%.

THANK YOU FOR CHOOSING BROWN FAMILY DENTISTRY.
WE CARE ABOUT YOU!
